News from Central Ky Corvair and Derby City Corvair

Last week was our garage crawl from Unique Auto Repair with following tour thru Turkey Run Park ending with lunch at Marks Feed Store. Eleven cars were in the tour, everyone enjoyed themselves even with the 95 degree weather. Members are starting to make plans for the national convention in Pittsburgh at the end of July, car pooling etc. Quite a few are going with plans probably being finalized at the July 10th meeting, 7:00 pm at Bob Hook Chevrolet. Through the grapevine a member became aware of a young Marine that was off for basic, owns a 60 Corvair that needed brake work. 4 members evaluated the car, ordered parts and fixed the car the first couple of weeks in June. Someone will be surprised when he gets home. Hopefully we have a new member also.
